Project Name	Inventory Management System For Retailer

Create An Account In Sendgrid:

The screenshot shows a web browser window with the URL `app.sendgrid.com/guide`. The browser's tab bar shows several open tabs: IBM, CAD, Post, Cloud, Cloud, Send, flask, and Send. The SendGrid dashboard is displayed, featuring a sidebar on the left with navigation links: Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, Settings, and Twilio SMS (marked as NEW). The main content area has a large blue banner that reads "Welcome, ganesan!" followed by the instruction "To get up and running quickly, please follow the steps outlined below." Below this is a blue box with the text "Send your first emails with Twilio SendGrid". The "Create a sender identity" section is highlighted, explaining that a sender identity is needed before sending emails and recommending the creation of a "Single Sender". A button labeled "Create a Single Sender" is visible, along with a link to "Authenticate a domain instead". An illustration of an email interface shows a sender named "Your Business" with the email address "jane.doe@your_business.com". At the bottom, a section titled "Send your first email" includes a note: "Please create a sender identity before sending your email".
